

IRID 2020

INNOVATIVE RESEARCH AND INDUSTRIAL DIALOGUE 2020

Bridging University And Industries Through Research

17 DISEMBER 2020 | UNIVERSITI TEKNIKAL MALAYSIA MELAKA

PAPER ID	TITLE	ROOM
2	Critical Success Factors for Lean Manufacturing Implementation in Machinery and Equipment SMEs	ROOM 1
3	FT-IR analysis of Kappaphycus alvarezii	
4	Database Storage Space Saving Using Proxy Attributes for Green Data Centers	
5	Evaluation of the Effectiveness of Active Learning Approach Using Pre-test and Post-test Technique	
6	Development of Diabetic Retinopathy Consultation System (DRCS)	
7	The effect of cutting tool geometry on thrust force in drilling carbon fibre reinforced plastics (CFRP)	
8	Evaluation on accuracy of new vulnerability classification pattern algorithm in public data set	
9	The Effect of Texturing Characteristics of Up-Grade Nickel-Copper Substrate to Resin Compound Adhesion	
11	Investigation of carbon fiber reinforced polymer (CFRP) composite behavior towards friction force and wear rate	
12	Impact of K ⁺ cation with tetramethyl ammonium iodide salt in PVA based gel polymer electrolytes for DSSCs efficiency	
13	Effect of injection moulding parameters on fill time using moldflow simulation software	
14	Conceptual Framework for Dubai Police Department Risk Management Model	
15	The effect of heat input on hardness cold-rolled plate joint using Cold Arc joining technology	
16	Comparison of Deionized Water and Quarry Dust Suspension as Coolant in Drilling of Titanium Alloy	
17	Vibration of AA1100 During Joining Thin Material Using Bobbin Friction Stir Welding Process	
18	Effect of waterjet abrasive waste on compression strength in sand casting by taguchi approach	
19	Simulation and Optimization for Predictive-reactive Job Shop Scheduling of Reconfigurable Manufacturing System	ROOM 3
20	Thermal Analysis of IZO-Kenaf/Polyaniline/Poly(lactic Acid) (PLA) Hybrid Composite	
22	Developing Process FMEA for Centrifugal Pump: A Case Study in Loji Air Bertam, SAMB	
24	Design of Nonlinear PID Controller with Conditional Integrator for Cutting Force Compensation	
25	Installation Analysis of Reinforced Thermoplastic Pipe in Existing Underground Piping	
26	Conceptual Design on Slurry Pouring Mechanism using integrated Morphology Chart (MC) and Analytical Hierarchy Process (AHP)	
27	E9304A Power Sensor S11 Analysis from 300 kHz until 8.5 GHz	
28	Cooling Load Estimation for Laboratory at School of Manufacturing, UniMAP	
29	OPTIMIZING CERAMIC SHELL THICKNESS TO ENHANCE ITS PERMEABILITY FOR INVESTMENT CASTING	
30	Material characterizations of thermoplastic materials in compression moulding compared to injection moulding - A review	

IRID 2020

INNOVATIVE RESEARCH AND INDUSTRIAL DIALOGUE 2020

Bridging University And Industries Through Research

17 DISEMBER 2020 | UNIVERSITI TEKNIKAL MALAYSIA MELAKA

PAPER ID	TITLE	ROOM
31	Enhanced Thermoelectric Power Factor of Electrodeposited Bismuth Telluride with Inclusion of Pt nanoparticles and SWCNTs	ROOM 4
33	Morphological, Physical and Electrical study of PANI/GNPs-DBSA Conductive Composite	
35	End-of-life Metal Recycling Desirability (MRD) Model Using Critical Factors Integration for Sustainability	
36	Effect of Cutter Geometrical Features for Machining Polyetheretherketone (PEEK) Using Taguchi Methods	
37	The effect of hybrid kenaf/glass fiber composite layering thickness in crashworthiness analysis	
38	STUDY OF SEAWEED POWDER SIZE PRODUCTION USING DRY MILL BLENDER	
39	Prototype of passive sit-stand exoskeleton for prolonged standing tasks	
40	Automated pick and place mechanism for 3D-mould interconnected device and planar-PCB	
41	A Screening Tool for Back Pain Detection among Computer Users	ROOM 5
42	Mass Conversion into Force via Robotic Device	
43	Finite element analysis of cutting temperature in turning process using Box-Behnken response surface method	
44	Comparative Analysis of IPv4 and IPv6 Proxy Server	
45	Analysis of IDS System Detection for VoIP Attack	
46	Investigation of muscle fatigue for pes planus orthotic insole solution using EMG	
47	Inventory management via topsis analytical hierarchy process (AHP) method embedded with economic order quantity (EOQ)	
48	Design Optimization of a Soft Bending Actuator	
49	A Layout Optimization Approach for Reconfigurable Conveyor System using Simulation Technology	
50	Crawling into motion: Design optimization of soft crawling robot (SCR)	
51	Minimum Effective Range of UWB Positioning	ROOM 6
52	A Manipulated Neighbor Discovery Protocol as Attack on Hybrid Internet Environment	
53	HRPL for 6LoWPAN Smart Home System: A Performance Evaluation of Network Control Traffic Overhead	
54	Emotion-Cognition Abnormality Detection in Individuals with Public Speaking Anxiety using EEG	
56	EFFECT OF HEAT TREATMENT TEMPERATURE ON HARDNESS AND CRYSTALLOGRAPHY OF SINTERED GREEN GLASS CERAMIC COMPOSITE (GCC)	
59	Corrosion protection behavior of graphene added epoxy film coated on mild steel	

IRID 2020

INNOVATIVE RESEARCH AND INDUSTRIAL DIALOGUE 2020

Bridging University And Industries Through Research

17 DISEMBER 2020 | UNIVERSITI TEKNIKAL MALAYSIA MELAKA

PAPER ID	TITLE	ROOM
63	Green tourism: Environmental-Social-Governance (ESG) long-term impacts on restoration of Melaka River	ROOM 7
64	Disturbance compensation using a state estimator-based controller for precise tracking performances in XY milling table ballscrew driven system	
65	Mobile Malware Detection Using Deep Neural Network Through Opcode	
67	Physical Properties of Black Filled Natural Rubber Composites via Response Surface Methodology	
68	Finite Element Simulation Of Machining Aluminium Silicon Carbide Metal Matrix Composite	
69	Learning Japanese Language Using Augmented Reality	
70	Learning Malaysian Traditional Games Using Augmented Reality	
71	Improving Intrusion Detection Using Deep-SVM Technique	ROOM 8
72	STEP-NC Toolpath generation using IEC 61499 Function Block	
73	Empirical Study of Passive Mode Reconnaissance Attack Technique on IPv6 Tunneling	
74	Visualizing Collision Detection Techniques in Flocking Simulations	
75	Management students' perception on required soft skills for employability opportunity in 'new normal' practice	
77	The Effect of Mechanical Stirring on Microstructure of CNT Reinforced Aluminium Matrix Composite	
78	Network Performance Analysis of 6LoWPAN Routing Protocols: A Review	
79	IoT-based Device for Real-Time Water Quality Monitoring System	ROOM 9
80	Morphological Characterization of Transition Metal Ternary MoSSe Chalcogenide Thin Films by Electrochemical Route	
81	Disaster preparedness in major hazard installation: Issues and challenges from the perspective of enforcement officers	
82	CNC Turning Performance under Automated Coolant Supply System	
83	Navigation Framework for Trackless Autonomous Guided Vehicle	
84	The Application of Kansei Vocabulary in Product Form Innovation Development	
85	Mechanical Properties and Fracture Observation of Green Innovative Glass Ceramic Tile Made from Waste	
86	Crossover of Genetic Algorithm for Linear and Nonlinear System Identification	
87	Effect of Low Solution T6 Heat Treatment on Morphology of AlFeSi phases in Al-Si Alloy	
89	Prediction of Surface Roughness for Smart Machining Process in Manufacturing	
90	Optimum Machining Parameters for CNC Milling Through Screening Operation on AA6041 Using Taguchi Method	

IRID 2020

INNOVATIVE RESEARCH AND INDUSTRIAL DIALOGUE 2020

Bridging University And Industries Through Research

17 DISEMBER 2020 | UNIVERSITI TEKNIKAL MALAYSIA MELAKA

PAPER ID	TITLE	ROOM
91	Understanding the Critical Factors of Unnecessary Overtime	ROOM 10
92	Sliding Wear Behaviour and Hardness Properties of Nickel-Quarry Dust Composite Coatings	
93	Development of Network Attached Storage using Raspberry Pi	
94	An investigation of 3D torso model to monitor compensatory movement in stroke patients during cross-body reaching assessment	
95	Solidification Path Simulation of Die Casting Alloy for Phase Evolution Prediction	
96	Shape Preserving in Aerodynamic Product Profiles Using Geometric Design Modelling	
97	Dimensional Accuracy of Melaka Historical Artifact produced from Additive Manufacturing and Reverse Engineering Systems	
98	Foldable Furniture - Design Selection for Foldable Table	
99	Indoor Place Recognition Method for Mobile Robot	
100	Preliminary study of green synthesis and characterization of graphene-based materials for photovoltaic application	
101	Characterization of Polyaniline and Graphene Oxide as Possible Electrode Materials for Supercapacitor	
102	Optimization Design of Rear Door Car Fitting Jig by Using Design for Manufacturing and Assembly Approach – Boothroyd Dewhurst DFA Method
